**FOR IMMEDIATE RELEASE**

## **Youtech & Associates Skyrockets to #7 Design Firm in the Nation**

NAPERVILLE, IL; December 11, 2015 – Youtech & Associates Inc., an integrated marketing & design agency founded by young entrepreneur Wilbur You, has announced its placement as the #7 responsive design firm in the nation.

The rankings, issued by [TopDesignFirms.com](http://TopDesignFirms.com), take into account mobile website rankings, traffic, and sales generated by responsive websites.

Youtech has long been known for its work in responsive web design, digital marketing, social media marketing, and traditional marketing for over 300 clients and counting. The business has provided work for companies across the nation: Fat to Finish Line, InterPark Holdings, Ballengee Group, Awesome Hand Gaming, Dressander | BHC, Northwestern Medicine, Impact Marketing, Norton Norris Inc., Octagon Entertainment, and Nebraska Book Company.

Since its founding three years ago, Youtech has gone from a \$600 business in the basement of Wilbur You's home to a multi-million dollar generator as it continues its journey to the top of the marketing and development verticals.

Coinciding with its ranking, Youtech has also announced its plans to move to its fourth office space in three years, a 6,000 square-foot site in Naperville. Though the business plans on remaining local for the short-term, future plans involve expansions to Chicago, Los Angeles, and other major cities.

While CEO Wilbur You's first two business ventures failed, Youtech has flourished, moving quickly from a small startup to a sizeable company in the midst of an exceptional growth phase. Youtech has developed an executive team of design, business, and marketing professionals. The business is currently looking for college interns and corporate executives to expand even further.

Wilbur You has been featured in Forbes, The Chicago Tribune, Chicago Sun Times, Naperville Sun, Northwestern Medical, The Chicago Daily Herald, and NIUToday. You is an alumnus of Northern Illinois University's computer science program, and the young visionary is still featured on the school's website. He will receive his MBA in May 2016 from Keller Graduate School.

Youtech has helped everyone from small businesses to big corporations and celebrities in the creation of their respective brands. The business prides itself on returning all marketing dollars in the form of an investment while building an empire for each and every client.

You and Trent Anderson, another young business executive from Youtech, are planning on running for Naperville City Council in the next election.
